

Mohammad Khaled Shiplak

Full Stack Developer .NET Core

+962 796740125 | Jordan | mohmmad2shiplak@gmail.com | LinkedIn: MohammadShiplak | GitHub: MohammadShiplak

PROFESSIONAL SUMMARY

Full Stack Developer with expertise in designing, developing, and deploying scalable applications using ASP.NET Core, C#, SQL Server, and React.js. Skilled in front-end and back-end development, RESTful API design, and database optimization.

TECHNICAL SKILLS

- **Programming Languages:** C++, C#, JavaScript, Typescript
- **Frameworks & Libraries:** .NET Core, ASP.NET Core Web API, React.js, Redux Toolkit, Bootstrap
- **Databases:** SQL Server, T-SQL, Entity Framework, ADO.NET
- **Tools & Platforms:** Git, GitHub, Swagger, REST APIs, Visual Studio
- **Core Competencies:** Problem Solving, Quick Learning, Teamwork, Communication Skills, Adaptability, Attention to Detail

PROFESSIONAL PROJECTS

Bank Management System

August/2025

- Developed and deployed a secure system for deposits, withdrawals, transfers, and client management.
- Implemented a 3-tier architecture with Entity Framework Core and Repository Pattern.
- **Technologies:** React.js, Redux Toolkit, Axios, React Bootstrap, React Router, TypeScript, ASP.NET Core Web API, Entity Framework Core, SQL Server, Repository Pattern, 3-tier architecture.

Product Management System

April/2025

- Designed and implemented a CRUD-based product management platform with RESTful APIs, Redux Toolkit for state management, and SQL Server integration.
- **Technologies:** React.js, Redux Toolkit, Axios, React Bootstrap, React Router, TypeScript, ASP.NET Core Web API, Entity Framework Core, SQL Server, Repository Pattern, 3-tier architecture.

E-Commerce Website

February/2025

- Developed an e-commerce website project inspired by Amazon using HTML, CSS, JavaScript, and integrated with external APIs.
- Built application functionality that allows users to browse products, add items to a shopping cart, manage their orders, and track their order status.
- **Technologies:** HTML, CSS, Javascript

School API

December/2024

- Developed a scalable web service for managing school operations.
- Implemented RESTful services with Entity Framework and automated unit testing to ensure reliability.
- **Technologies:** ASP.NET Core (Web API), SQL Server

Clinic Management System

October/2024

- Built a desktop application to manage patients, doctors, appointments, prescriptions, and billing using WinForms and ADO.NET.
- Optimized database performance through indexing and stored procedures.
- **Technologies:** .NET Framework (C#), WinForms, SQL Server, T-SQL, ADO.NET, 3-tier architecture.

CERTIFICATIONS & ACHIEVEMENTS

- Prompt Engineering for ChatGPT - Coursera
- React.js - Udemy
- Completed 24 programming courses on Programming Advices platform covering: Problem Solving, Algorithms, Data Structures, C++, C#, .NET Framework, Database Management, SOLID Principles, and OOP.
- Completed Learning How to Learn course on Coursera to enhance learning effectiveness.

LANGUAGES

- **English** - Fluent
- **Arabic** - Native
