

# Mohammad Khaled Shiplak

## Full Stack Developer .NET Core

+962 796740125 | ✉ mohmmad2shiplak@gmail.com | LinkedIn: linkedin.com/in/MohammadShiplak | GitHub: github.com/MohammadShiplak

### PROFESSIONAL SUMMARY

Full Stack Developer with expertise in designing, developing, and deploying scalable applications using ASP.NET Core, C#, SQL Server, and React.js. Skilled in front-end and back-end development, RESTful API design, and database optimization.

### SKILLS

**Programming Languages:** C++, C#, JavaScript, Typescript  
**Frameworks & Libraries:** .NET Core, ASP.NET Core Web API, React.js, Redux Toolkit, Tailwind CSS  
**Databases:** SQL Server, T-SQL, Entity Framework, ADO.NET  
**Tools & Security:** Git, GitHub, Swagger, REST APIs, Visual Studio, JWT, Rate Limiting, Auditing  
**Core Competencies:** Problem Solving, Quick Learning, Teamwork, Communication Skills, Adaptability, Time Management, Critical Thinking, Attention to Detail

### WORK HISTORY

- Bank Management System** May 2026
  - Developed and deployed a secure system for deposits, withdrawals, transfers, and client management, handling 500+ simulated daily transactions.
  - Integrated authentication, authorization, ownership policies, refresh tokens, rate limiting, and auditing.
  - Implemented a 3-tier architecture with Entity Framework Core and Repository Pattern, reducing bug resolution time by 30%.
  - Technologies:** React.js, Redux Toolkit, ASP.NET Core Web API, Entity Framework Core, SQL Server, JWT.
- School Management System (In Progress)** December 2024 - Present
  - Expanding the scalable school operations API into a comprehensive full-stack management system.
  - Implemented robust authentication and authorization mechanisms to secure over 50 RESTful API endpoints.
  - Connecting the system with a modern React.js frontend using Tailwind CSS and Redux Toolkit.
  - Technologies:** React.js, Tailwind CSS, Redux Toolkit, ASP.NET Core Web API, SQL Server.
- Product Management System** April 2025
  - Designed and implemented a CRUD-based product management platform managing up to 1,000 inventory items with zero data loss.
  - Technologies:** React.js, Redux Toolkit, Axios, React Bootstrap, React Router, TypeScript, ASP.NET Core Web API, Entity Framework Core, SQL Server, Repository Pattern, 3-tier architecture.
- E-Commerce Website** February 2025
  - Developed an e-commerce project inspired by Amazon using HTML, CSS, JavaScript, and external APIs, reducing load times by 15%.
  - Built functionality that allows users to browse a catalog of over 500 products, add items to a cart, and track order status.
  - Technologies:** HTML, CSS, Javascript
- Clinic Management System** October 2024
  - Built a desktop application to manage records for 200+ simulated patients, doctors, appointments, and billing using WinForms.
  - Optimized database performance through indexing and stored procedures, reducing query response times by 40%.
  - Technologies:** .NET Framework (C#), WinForms, SQL Server, T-SQL, ADO.NET, 3-tier architecture.

### CERTIFICATIONS & EDUCATION

- Prompt Engineering for ChatGPT** Coursera
- React.js** Udemy
- Completed 28 programming courses** Programming Advices

*Covering: Secure API, HTML, CSS, JavaScript, Problem Solving, Algorithms, Data Structures, C++, C#, .NET Framework, Database Management, SOLID Principles, and OOP.*
- Learning How to Learn** Coursera

### LANGUAGES

- English:** B2 (Upper Intermediate)
- Arabic:** Native
